When we speak of "PROGRESS", we begin with January when we were met by 2 new goats, and at year end, with our first

"formal" Kindergarten TOP Class (17) graduation. Sandwiched in between were the P7 students PLE Primary Leaving Exam, now hopefully moving on to S1. The 172 students (about 45 sponsored - see web site for sponsorship) found the 1st term start with resurfaced floors, new kitchen equipment (refrigerator, stove and microwave), the start of S1 (freshman class of Day Spring Christian High School with new uniforms), a computer lab, and sewing classes. Another "1st" was the arrival of Miss Taryn Yates, USA missionary/teacher of English/Art and in May she became "girls dorm mother" as well, as she returned for the 2nd and 3rd terms. Our devotional chapel time is

1st Term Donations
SMI donations rise to \$25,000
DSCA Revenue increases to 20.3 million (\$10,150)

filled with Bible teaching, songs and prayers as we received funds to begin to construct S1. S1 students began their entrepreneurship "rabbit project", building cages, buying the animals,

feeding them, and selling the new offspring. Now they have repaid the start-up capital of \$100. They built new houses for the goats and chickens. ►

PLE Testing Center Approval granted by Ministry of Education

Record Donations for 2010

TERM 2 brought 3 donated laptop computers, the installation of hot water for the bathroom showers, new

quarters for the "girls dorm mother", and the building of the new S1/2 classroom. Sunday services grew to average 50, as the community people joined our students for worship with song and Bible study. The long awaited Redeemer Presbyterian Church mission team, led by Sr. Pastor Dr. McGee, made glad the hearts of our children with Bible lessons, singing, medical care, teaching and gifts (new dresses for all the girls). Our "honor guard" was well rewarded (lower left) for their welcome ceremony of the team.

We were blessed by the gift of a new generator, which we use almost every day when school is in session due to power outages. Tyndale Publishing gave Day Spring kids much needed Bibles, which

they are encouraged to read daily. And two more events would take all the attention: ONE,

Tadeo ► Mugisha (7)

and the other, Marla's return to work at Day Spring after two surgeries on the broken collar bone and six months of rehab. Tadeo was brought to us for "care", as the mother has no ability with home or work to

provide for him. The court denied our petition to become legal guardian and were strongly advised to return him to his mother. Now we provide for Tadeo to come to Day Spring and feed him and sponsor all his needs. In the last six months he has learned to speak English, and has progressed well enough to be promoted to KG Middle Class as Marla often reads with him, teaches numbers, alphabet and writing to Tadeo.

Term 2 Construction donations reached (\$17,000) so we keep the work going to finish the

2nd Term Donations
SMI Ministry income rises to \$38,577
DSCA Revenue continues at
20 million (\$9,296)
Construction Donations reach \$17,000

much needed S1/2 building, as the first classroom will be ready beginning with the **3rd TERM**. During

the interim holiday the work continued and the roof was installed and stairway constructed. The "**academic achievers**" (top student in each class) were awarded 5,000 shillings each, as teachers proudly lined up behind their student (\$2.50 US - some parents came and asked where the student got the money as they did not believe them). We now also award the students who make the greatest progress in each class ← **Academic Awards**. (5,000 Ugx/\$2.50 ea). Changes were made in the staff. Head Teacher Geoffrey Lubundule and Pastor/Head teacher

Hubert Litongo (left check shirt and paisley shirt respectively) are promoted to the deputies of the High School and the Primary section (respectively). New academic standards are implemented "**all students must achieve 60% for a passing grade and promotion**" to the next class). New disciplinary measures replaces Uganda's normal practice of caning, as we promote measures of extra physical exercise or academic work.

We built our own doors and windows for S2. The chapel/eating pavilion gets new paint, and a storm (twister) rips off our door awning and fells our basketball backboard.

We add to our animal farm 17 new turkey chicks, 12 new chickens, two game hens (which have not produced off spring to date) and decrease by three goats (sold) now fully grown, while the mother is pregnant to deliver in January 2011.

Taryn Yates finishes and went home to the US at Thanksgiving, as we said "good bye" and much thanks. Her class was the only one at Day Spring where ALL the students improved in the third term. She taught them English, spelling, word meanings and had spelling bees and was their class teacher. Our P7 students and the ones from Morning

Star were registered under our PLE Center Number and sat for Exams the first week of November. The 17 were very confident of their performance and we will know the results this January. Our choir and all the class talent groups performed for the graduation of TOP class for over 300 parents and friends. We **praise God**, and are **truly**

thankful to all for Construction-, Orphan support-, a year of operations support-, Redeemer PC school kids toys, as we look forward to getting a BUS for bringing distant kids.

Sharing Christ with the nations:
Respectfully,

Joseph and Marla Mooibroek
(Directors, SMI & DSCA).
